Trinity Health
Of New England

Saint Mary's
Hospital Foundation

Dear Colleague,

Each day, with every interaction, all of us at Saint Mary's have the opportunity to touch someone's life, to make someone's day better, to exceed expectations. That's what makes Saint Mary's truly exceptional, and it's why the work that we do at Saint Mary's Hospital Foundation is so important.

Part of our ability to exceed expectations is made possible by our Foundation. The Foundation works hard to provide vital funding and community support so that our patients have access to the latest technology, state-of-the-art equipment, critical services and new facilities. So far in 2018, thanks in large part to the fundraising efforts of our Foundation, we opened a beautiful new Center for Breast Imaging in Radiology and a new Mandell Comprehensive MS Center on O'Brien 5. We've also committed to raising funds to renovate our Emergency Department, which will include relocating the behavior health portion to its own private area. In addition to taking on this effort as part of their current Capital Campaign, which you can check out at www.TheTogetherEffect.org, the Foundation is still providing other much needed support to Saint Mary's Hospital.

Through this year's Be Inspired Workplace Giving Campaign, you can support the upcoming Emergency Department Renovations, or you can support the greatest needs of Saint Mary's Hospital. One example of 'greatest needs' that we funded recently through the Foundation is the da Vinci Robot, which was purchased last fall and has allowed us to bring robotic surgery to the outpatient setting. This latest technology allows Saint Mary's to be a leader in the most advanced surgical methods that offer better outcomes for our patients – including less time under anesthesia and quicker recovery time.

The Foundation is proud to provide support to our Hospital and our community and we're inspired by the impact that we can have – together. Thank you for your support of Saint Mary's Hospital and Saint Mary's Hospital Foundation, and your consideration of a gift to the 2019 Campaign.

Sincerely,

Steven Schneider, MD, MBA
